is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does comhine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remerkable cures it has made of the following discuses: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Ervsipelas, Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Merenrial Diseases, Female Weaknesses, and, indeed, the whole eries of complaints that arise from impurity of the blood. We know the public have been deceived by many compounds of Sursupavilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence

for the care of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
